

Welcome to this study course on Ephesians.

This has been designed for groups to work through together, with aids for those inexperienced in leading Bible Study groups and a range of options of how to spend time together each session.

We have divided Ephesians into 12 sections, half a chapter each, enough for an indepth study each time you come together.

About Ephesians Interactive

The Bible text used throughout is our own modernised Authorised (King James) Version. We have changed thee and thou to you, modernised words ending in eth and in a few cases replaced out of use words with modern ones and rearranged sentences to make them sound less stilted. It is expected that everybody in the study will, however, come along with their favourite translation as well as having the modernised AV available.

On this CD-Rom you will find pdfs of handouts of the complete modernised AV text of Ephesians and the study questions. There is also a leader's pack with supplementary questions designed to assist in leading a discussion group should you need it.

The interactive way to use this material is to link to the studies using your web browser and present them using a projector or large monitor in your meeting room. As you move around the study, questions appear on the right hand side of the screen with additional notes on the passage on the left. If you don't have access to a computer where you meet, however, then the study questions handouts cover the same questions.

An alternative way of running a meeting would be to listen to the recorded talk for each study and then use the questions afterwards.

You can approach each study in the same way, or if you prefer vary the method you use each time. The main thing is that you find out what works best for your group and helps you as a leader get the most out of each session.

Finally, please fill in the evaluation sheet at the end of your use of this material and email it to us at feedback@tfgministries.org.uk or geoff@lumin.org.uk
